# Two Historical Markers in Paradise Cemetery

## George Lafayette Ramsdale (1820 – 1884)

**George Lafayette Ramsdale (1820 – 1884) was a native of Devonshire, England. By 1836, he had come to Texas and enlisted in the army during the war for independence from Mexico. After the revolution, Ramsdale, his wife, Elizabeth (1825 – 1909) and their children lived in Harrison, Rusk, Houston, and Bosque Counties. During the Civil War, he served the Confederacy by protecting the frontier. The family moved to Wise County in 1866, where he farmed and operated a tannery. His military service, adventuresome spirit, and community leadership are significant examples of the state's pioneer heritage.**

**The information that follows came from:**

- 1. A cemetery listing done Jan 15, 1961 by Mr. & Mrs. Homer L. Roper.**
- 2. Cemetery headstone photos taken in December of 1999 by Sue Tackel and LaDarla Keith.**
- 3. Cemetery headstone photos taken in May of 2012 by Dustin Campbell.**
- 4. Some additions and corrections that have been sent in by email.**

In 1999 Sue Tackel and LaDarla Keith took digital pictures of all the headstones at that time. They divided the cemetery into sections and rows. They assigned headstone numbers to each headstone (2 numbers if a double stone) as they went down the rows.

If no headstone was found, but the information was in the older cemetery listing done in 1961, that headstone was given a number with brackets around it.

In 2012 Dustin Campbell took pictures of all of the headstones in the newer sections of the cemetery (Sections 1-4 and 6). He also took pictures in the older sections of any headstone with a date of 2000 or newer. These new headstones were given numbers between the older headstone's numbers (940a and 940b would be between the old 940 and 941).

Pictured above is a fenced area in Section 5 with the headstones of Lawrence, U.C.V., A.J. Baker, and Wesley Cook. Row 11 runs through this fenced area.

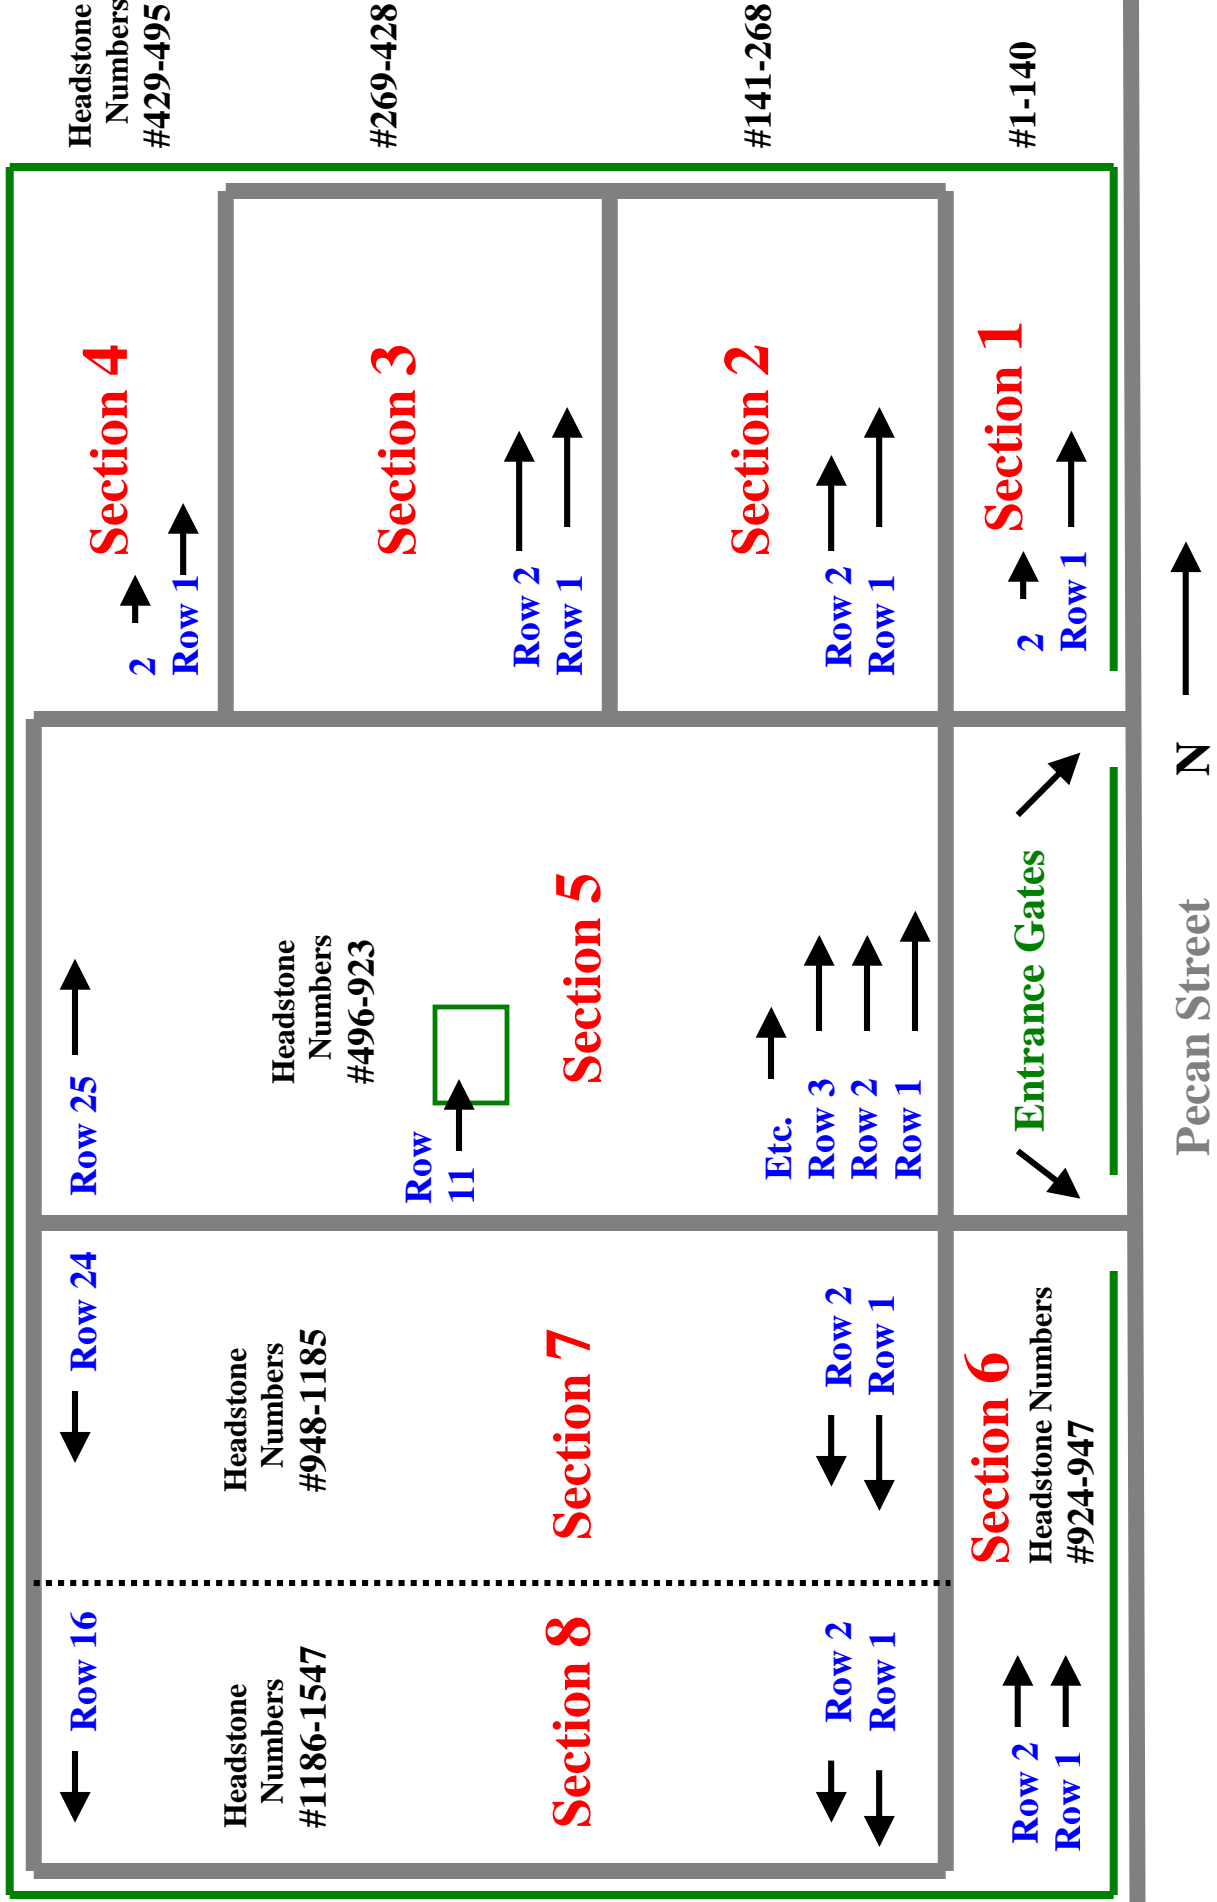

In 1999 there were some fenced headstones in the large area to the south. Because this section was so large, a string of baler twine was run through it to divide it into Sections 7 and 8. This string went from east to west through the center of the section just to the south of a fence that is not longer there.

**Row numbers and position in the row may not be exact. Look for headstones in that area.**

**Unk** Section and brackets around the headstone number mean that we did not find these headstones. No pictures were ever made. The information came from a cemetery listing done in 1961 by Mr. & Mrs. Homer Roper.
